SAIL | EXPERIENCE CENTRE VISUALISATION

Asset Download List

Part A: what only you can download (accounts, logins, manual clicks). Part B: what Claude fetches or builds itself. Tick the boxes as you go.

How to use this

Step	Detail
Part A: you	Everything here needs **your** account, a login, a purchase or a manual click, or the site's terms ban scripts and bots. Claude cannot and should not automate these.
Part B: Claude	Public APIs and open data (CC0 / CC-BY / public domain), plus everything built procedurally in Blender. Don't spend your time on these.
Where files go	Drop each download, still zipped, into **assets/inbox/<source>/<item>/** (e.g. assets/inbox/knoll/barcelona-chair/). Claude handles conversion, real-world scale, origin, materials, bevels and the licence manifest.
Pick this format	FBX → OBJ → 3DS → SKP → DWG 3D, in that order. **Skip Revit .rfa** (no Blender import). Lighting: .ies preferred, .ldt is fine (Claude converts LDT → IES).
Link status	Every link was opened in search on 23 Oct 2026. Where a row says search on page, the portal is confirmed but the exact product page was not.

On 'internal only'. Internal use doesn't make pirated packs, research-only datasets or non-commercial (NC) models usable. The renders also go to SAIL inside a pitch, which counts as commercial work. Everything in this list is legitimately usable for that. With manufacturer files: put them in scenes and renders freely, but never pass the model files themselves on to anyone.
The big idea: SAIL is a steel company, so make the furniture steel too. Barcelona, Bertoia, Prouvé, Breuer/Stam cantilevers, the Eames Wire chair and USM Haller are all design-history steel. Chrome and satin pieces suit Contemporary Steel; raw and blackened pieces (Tolix, Prouvé) suit Forged Heritage.

Accounts to create (one sitting, about 20 minutes)

	Account	Site	Why
☐	**Trimble ID**	3D Warehouse	Official brand models, including Vitra
☐	**myERCO**	download.erco.com	Full IES archive
☐	**Sketchfab**	sketchfab.com	Industrial artefact scans, palms
☐	**Design Connected, Dimensiva**	designconnected.com, dimensiva.com	Free designer models + paid steel pieces
☐	**Muuto Professionals**	professionals.muuto.com	2D/3D files
☐	**Epic / Fab**	fab.com	Bi-weekly free drops
☐	**Adobe ID**	Mixamo + Substance 3D Assets	Animated people, free materials
☐	**Poliigon, 3dsky, BIMobject, pCon**	poliigon.com, 3dsky.org, bimobject.com, pCon.catalog	Materials and brand catalogues

PART A: ONLY YOU CAN DOWNLOAD

A1. Steel furniture: manufacturer portals

	What to grab	Where (click)	Zone / use	Notes
☐	**Knoll: Barcelona chair, stool, table, couch**	knoll.com › Furniture Symbol Library › Barcelona	Z1 VIP lounge / reception	Chromed flat-bar steel (Mies, 1929): the most famous steel chair there is. Take the SketchUp file.
☐	**Knoll: MR chair/chaise, Bertoia Diamond + side chair + stools, Platner**	knoll.com › Furniture Symbol Library	Z1 lounge, Z5 touch-table stools, Z7	Search on page for MR, Bertoia, Platner. Bertoia = welded steel rod; Platner = nickel-plated steel rod.
☐	**Herman Miller: Eames Wire Chair (all bases)**	hermanmiller.com › Eames Wire Chair	Z5 / café edge	Steel wire. Revit, SketchUp, AutoCAD 2D/3D: take SketchUp. Sibling pages cover dowel and 4-leg bases.
☐	**Herman Miller: Eames Tandem Sling Seating, Eames Aluminum Group**	hermanmiller.com (India) › 3D Models & Planning Tools	Passage waiting, meeting room	Search on page. Tandem Sling is airport-style beam seating, ideal along the passage.
☐	**Vitra: Standard chair (Jean Prouvé)**	vitra.com › Standard › CAD data	Meeting room, Z7, Forged Heritage	Folded sheet steel. Same portal: search Fauteuil Direction, EM Table, Potence lamp, Aluminium Chairs.
☐	**Vitra: official 3D Warehouse profile (155 models)**	3dwarehouse.sketchup.com/by/vitra	Everywhere	The fastest Vitra route. SKP; Claude converts.
☐	**Vitra: Professionals downloads hub**	vitra.com › Professionals › Downloads	Everywhere	'2D & 3D CAD Data' category.
☐	**Thonet: S 32 / S 64 (Breuer), S 33 / S 34 (Mart Stam), S 35 lounge, S 533**	thonet.de › All products (e.g. S 54 PF)	Z1 lounge, meeting room, Z7	Tubular-steel Bauhaus cantilevers. CAD on each product page; bulk CAD in Thonet's media database.
☐	**USM Haller: modular chrome-steel storage**	usm.com › Architects & designers	Z5/Z6 sample library, low vitrines	Configure to size, then download 3D. Also on BIMobject and pCon.
☐	**Steelcase: 3D Models / CAD**	steelcase.com › 3D Models/CAD (Asia)	Meeting room, back office	Steel-frame tables and seating.
☐	**Muuto: Linear Steel table + bench**	professionals.muuto.com	Café edge, Z7	Log in, then the 2D/3D files page.
☐	**HAY: Hee chair, stool, lounge (steel)**	hay.com › Image Bank (2D/3D files)	Café edge, setback	Per HAY product sheets the 3D files are in the Image Bank.
☐	**Tolix Marais A chair + stools (raw steel)**	Piece of3D Marais set (Gumroad, €4.50)	Forged Heritage café, Z5	No official Tolix files. This set ships a native .blend.

A2. Model libraries (account needed)

	What to grab	Where (click)	Zone / use	Notes
☐	**3D Warehouse**	3dwarehouse.sketchup.com	All zones	Prefer verified brand profiles. Clearest licence for client renders; daily caps on free accounts.
☐	**Design Connected: Freebies**	designconnected.com/freebies	All zones	Free designer models, accurately scaled, cm units. Also official manufacturers' free list.

	What to grab	Where (click)	Zone / use	Notes
☐	**Design Connected: paid steel pieces worth buying**	Magis Steelwood, HAY Hee, Emeco Navy	Z1, Z5, café	Photoreal models. One purchase gets every format.
☐	**Dimensiva**	dimensiva.com/free-3d-models	All zones	Free account. FBX/OBJ, some with .blend. Blender packs: Dimensiva + 3Dshaker Free Pack 01 (packs 02 to 04 too).
☐	**3dsky free**	3dsky.org	Fill	3 free models per 24 h. Mostly .max; check who uploaded it.
☐	**BIMobject**	bimobject.com	USM, brands	Official interfaces only, no bulk.
☐	**pCon.catalog**	pCon.catalog	Arper, Muuto, USM	Free account; manufacturer CAD.
☐	**Blendkit (formerly BlenderKit)**	Blendkit add-on	Fill, plants	Free plan about 23.7k models. Through the add-on only, no scripts.
☐	**Fab limited-time free**	fab.com/limited-time-free	Anything	Rotates every 2 weeks; claim archviz items whenever you see them. Fab Standard licence works in any DCC.

PART A: ONLY YOU CAN DOWNLOAD

A3. Steel and industrial artefacts (Sketchfab, credit the author)

	What to grab	Where (click)	Zone / use	Notes
☐	**Heavy Section Rolling Mill: real museum scan**	Skebobruks museum on Sketchfab	Z3 Legacy Tree historic equipment	**Best find.** CC-BY, about 1.4M tris: the 'authentic machine' in front of the tree. Claude decimates it.
☐	**Gearbox, two-stage helical**	Steven Samuel on Sketchfab	Z3 / Z6	CC-BY, about 1.2M tris. Works as a cutaway artefact.
☐	**Gearbox (conical)**	T-FLEX CAD on Sketchfab	Z6 configurator	CC-BY.
☐	**Typical Steel Connection Details**	ntklong.501 on Sketchfab	Z6 configurator	Beam-column joints. Check the licence on the page.
☐	**Areca palm (PlantCatalog, 62 variants)**	PlantCatalog areca on Sketchfab	Planters, Z1/Z2	CC-BY, render only; never bundle the files. From your L&T Exteriors doc.
☐	**SKIP: 'Stainless Steel Coil' (IM-SEGEV)**	Sketchfab	n/a	Non-commercial / no-derivatives. Claude builds coils procedurally instead (Part B).

A4. Lighting photometry: IES / LDT (the biggest realism gain)

	What to grab	Where (click)	Zone / use	Notes
☐	**ERCO: complete IES/LDT archive**	download.erco.com	Every artefact, every zone	The museum standard. Free myERCO account gets the full archive. Parscan / Pollux / Eclipse track spots, Quintessence downlights.
☐	**iGuzzini: per-product IES, LDT, Revit**	iguzzini.com › Laser Blade (e.g. 2180)	Slat ceilings (Contemporary)	Download section on each product page. Search Palco for spots.
☐	**Flos Professional Space**	professional.flos.com › Architectural	Downlights, accents	LDT/IES per product (Light Shadow Pro and others).
☐	**Artemide: whole range as Eulumdat**	artemide.com/en/download	Decorative + architectural	One zip of .ldt files; Claude converts them to IES.
☐	**IES Library**	ieslibrary.com	Gap filler	90k+ files by manufacturer. Free key expires in 15 min, so download by hand.
☐	**Acuity Brands IES downloads**	acuitybrands.ca › IES downloads	Cove / linear LED	For the amber and white cove lighting in both themes.

PART A: ONLY YOU CAN DOWNLOAD

A5. People, plants, materials, maps

	What to grab	Where (click)	Zone / use	Notes
☐	**RenderPeople: free posed, rigged, animated**	renderpeople.com/free-3d-people	Delegation scenes	Blender/FBX/GLB. Commercial visualisation OK. Desktop only.
☐	**RenderPeople Posed (paid): business wear**	renderpeople.com/posed	Z1, Z2 hero shots	Buy 6 to 10 suited figures to match the concept renders; look for South Asian scans.
☐	**Mixamo: animated walkers**	mixamo.com	Unreal walkthrough	Adobe ID; royalty-free in renders.
☐	**Botaniq (paid)**	polygoniq.com › botaniq	All planters	Starter $1.99 / Lite about $50 / Full about $129. Includes houseplants. The one purchase that moves realism most.
☐	**Poliigon: free tier + add-on**	poliigon.com	Stainless, travertine, oak slats	Never automate: the terms ban scripts.
☐	**Adobe Substance 3D Assets**	substance3d.adobe.com/assets	Forged Heritage	About 175 free with an Adobe ID. Blackened steel, bronze patina.
☐	**Textures.com**	textures.com	Gap filler	Daily free credits; scripts banned.
☐	**ShareTextures**	sharetextures.com	Stone, wood	Manual download only.
☐	**Survey of India: state maps / boundary database**	onlinemaps.surveyofindia.gov.in	Z4 relief map (detail)	Sign-in and cart. Needed only for state or district detail; Claude fetches the national map (B1).

Order of attack: (1) the ERCO archive and the Knoll + Herman Miller + Vitra chairs; (2) the Sketchfab rolling mill; (3) RenderPeople free figures and Botaniq Lite. That alone lifts every zone. Drop them in assets/inbox/ and Claude takes it from there.

PART B: CLAUDE FETCHES OR BUILDS

B1. Scripted downloads: public APIs and open data

Source	Access	Zone / use	What Claude pulls
Poly Haven (CC0)	polyhaven.com API	All zones	HDRIs (indoor, studio, sky), metal, concrete, marble and wood textures, 521 models, and houseplants potted_plant_01/02/04, anthurium, calathea, pachira, fern.
ambientCG (CC0)	ambientcg.com API v3	All surfaces	Brushed and sheet metal, metal plates, concrete, terrazzo, marble, plus **fingerprint, smudge and imperfection sets** (what sells satin stainless).
Amazon Berkeley Objects (CC-BY)	ABO dataset (S3)	Back office, café	7,900+ retail furniture and home-goods GLBs with 4K PBR.
Google Scanned Objects (CC-BY)	Hugging Face mirror	Reception, café props	1,030 scanned small goods: cups, bottles, desk items.
Survey of India: Political Map of India 2025	surveyofindia.gov.in (PDF)	Z4 relief map outline	Official boundary. SAIL is a central PSU, so the map must match it exactly.
Copernicus DEM GLO-90	AWS Open Data (no login)	Z4 relief map	Real elevation for the illuminated India relief, clipped to the official outline.
Google Fonts (OFL)	github.com/google/fonts	Signage, placards	Noto Sans/Serif Devanagari for the Hindi SAIL wordmark and signage, plus Latin faces.
Objaverse CC0/CC-BY subset	pip objaverse	Industrial props	Filtered by licence; attribution logged.

B2. Built procedurally in Blender, to real SAIL product dimensions

Asset	Zone	Notes
Steel coils (HR / CR / galvanised)	Z1 welcome anchor, Z5	Parametric width, ID/OD, banding straps, edge sheen, coil-end marking.
Rail section: IRS 52 kg / UIC 60 profile	Z2 Living Stories plinth	Bhilai rail profile, mill-scale and polished-face variants.
Structural sections: ISMB / ISMC / angles per IS 808, plates, pipes, TMT bars	Z5 sample library, Z6 configurator	Exact section tables; cut faces with machining marks.
Legacy Tree branching steel structure	Z3	Bronze-toned (Forged) and satin (Contemporary) versions, digital frames on branches.
Vitrines, plinths, benches, reception desk, kiosks, ceilings	All zones	Stainless or blackened steel, low-iron glass, backlit bases; wood-slat ceiling, acoustic panels, coves, 12 ft clear height.
AV hardware from published dimensions	Z2, Z5, Z6	Sony ELF-SR2 SRD, touch table, LED wall, P2.5 transparent LED strips, digital frames.
Building shell from the Option 4 plan	Whole site	The plan is not to scale; confirmed wall lengths are needed before this is final.
LDT → IES conversion + licence manifest	Pipeline	Every file from Part A logged with source, licence and date; licence check before final renders.
